

MATH471: HOMEWORK 1

TEO J BRANDT

1. HOW TO COMPILE AND RUN HELLOWORLD.C

The text file `helloworld.c` which can be found in the directory `Homework1/Code` can be compiled in the following way

1. With the proper directory selected, type `gcc helloworld.c`
2. Next, just type `./a.out` to execute the compiled `helloworld`
